

THE WORKBOOK

Exercises & Templates

Every fill-in exercise from the course: fear inventory, talk builder, story bank, webinar spine, and your 30-day commitment contract. Writing is thinking — do the work here.

StageMaster Workbook

Exercises & Templates — Mastering Public Speaking for Online Entrepreneurs

Print this or work in a notes app. Do the exercises in order with their modules. Writing is thinking — don't just answer in your head.

Module 1 — Own the Room in Your Head

Exercise 1.1 — Fear Inventory

List your three biggest speaking fears, then reframe each one.

My fear	What I'm really afraid of	Reframe (giver / useful / rep)
e.g. "I'll blank out live"	Looking incompetent	A pause + "let me say that better" reads as human, not incompetent
1.		
2.		
3.		

Exercise 1.2 — Set Up Your Rep Log

Create a note titled "Rep Log." After EVERY speaking rep, add one line:

Date | Drill/context | One thing that worked | One thing to fix

Write your first entry now about your most recent speaking moment (a call, a video, a voice note — anything).

Exercise 1.3 — Your Outcome Sentence

For your next talk/live/video, complete: **"After this, my audience will be able to ____."**

Exercise 1.4 — Build Your Confidence Anchor (NLP)

The memory I'll anchor (a moment I was funny, sharp, unstoppable): ____

- What I saw: ____
- What I heard: ____
- Where I feel it in my body: ____

My trigger (pick one, keep it private and repeatable): ☐ thumb + middle finger ☐ press knuckle ☐ thumb into palm

The reps. Step into the memory → turn it up (bigger, brighter, louder) → at the PEAK, hold the trigger 3 seconds → release → break state. Five reps:

☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5

Test it: break state completely, then fire the trigger cold. Did the state come back? ☐ Yes ☐ Partly (do five more reps)

From now on: fire the anchor in the last ten seconds before every recording. Weekly top-up rep, every ____ day.

Module 2 — Message Architecture

Exercise 2.1 — Core Idea Drills

Turn these topics into claims (a Core Idea is a claim, not a topic):

1. Your main product → “If they remember one sentence: ____”
2. Your next piece of content → “____”
3. Your business as a whole → “____”

Exercise 2.2 — The 15-Minute Talk Builder

Build one real talk you’ll actually give this month:

- **Core Idea (the one sentence):** ____
- **Hook type** (stakes / story / contrarian / question): ____
- **Hook draft (word-for-word):** ____
- **Proof — Personal story:** ____
- **Proof — Pattern (what you’ve seen across clients/data):** ____
- **Proof — Principle (why it works):** ____
- **Payoff (exact action you’ll ask for):** ____
- **Closing line (word-for-word):** ____

Exercise 2.3 — Presupposition & Embedded Command Drill (*NLP*)

Part A — kill the “ifs.” Rewrite each sentence so the outcome is presupposed:

Weak (if)	Presupposed (when / as)
“If this works for you...”	
“If you decide to try it...”	
“If you get results...”	
One from your own last video:	
One from your sales page:	

Part B — three embedded commands for your offer. Write the full sentence, and CAPS the words you’ll mark with your voice (lower + slower):

1. _____
2. _____
3. _____

Part C — the ethics check. For each command above, answer honestly: does this action genuinely serve them? ☐ 1 ☐ 2 ☐ 3. Any you can't tick, delete.

Module 3 — Voice & Delivery

Exercise 3.1 — Four-Dial Self-Audit

Record yourself speaking for 2 minutes about your business. Listen back (audio only) and score 1–5:

Dial	Score (1–5)	What I noticed
Pace — varied, slows at key lines		
Pause — silence after big points, low filler		
Pitch — statements end downward, range varies		
Power — steady breath, no strain, projected		

My focus dial for this week: ____

Exercise 3.2 — Filler Replacement Drill

Record 60 seconds. Count your fillers (um, uh, like, you know): __ **Re-record the same 60 seconds, replacing every filler with a closed-mouth pause. New count:** ____

Exercise 3.3 — Analog Marking Drill (*NLP*)

Pick your next script or talk and choose exactly **three** lines to mark. No more.

Line I'll mark	How I'll mark it (slow / drop pitch / louder / silence before)
The Core Idea:	
The command/CTA:	
The price or the ask:	

The A/B test. Record all three lines twice — once flat, once marked. Listen back to both.

- Which version sounds more certain? ____
- What I noticed about my own delivery: ____

Pause practice. Say your Core Idea, then stay silent for a full three seconds while watching a clock.
Reps: ☐☐☐☐

Module 4 — Camera Presence & Body Language

Exercise 4.1 — Camera Setup Audit

Setting	Yes/No	Fix needed
Lens at eye level		
Eyes on top-third line, modest headroom		
Arm's-length distance, hands visible in frame		
Light in front of me (not behind)		
Background clean with depth + intentional objects		

Exercise 4.2 — Gesture Drill

Record 60 seconds explaining your offer. Requirements: enumerate one list on your fingers, show one contrast with your hands, end with open palms to the lens. Watch back with sound OFF. Note one self-soothing habit you caught: ____

Exercise 4.3 — State Transfer Check (NLP)

My state line — the three words I want to transfer through the screen (e.g. *calm, warm, certain*): ____

Write it at the top of every script from now on.

The pre-roll routine (30 seconds, in this order): ☐ stand + breathe low ☐ fire the Module 1 anchor ☐ picture ONE real person I'm helping ☐ say the state line out loud

The A/B test. Record the same 30-second explanation twice: once cold, once after the pre-roll routine. Watch both.

- Difference I can see on my face: ____
- Difference I can hear in my voice: ____

Weekly sensory-acuity habit. Once a week, open the retention graph on my last video. Where did people drop? ____ *What was I doing at that moment?* ____

Module 5 — Storytelling That Sticks

Exercise 5.1 — Your Four Banked Stories

Draft each in Before → After → Bridge. Two or three sentences per beat. SPECIFIC details (numbers, places, moments).

1. Founder Story (why you started) - Before: ____ - After: ____ - Bridge: ____ - *First line (start inside the tension):* ____

2. Discovery Story (how you found your method) - Before: ____ - After: ____ - Bridge: ____ - *First line:* ____

3. Customer Story (a specific person you helped) - Before: ____ - After: ____ - Bridge: ____ - *First line:* ____

4. Failure Story (a face-plant + its lesson) - Before: ____ - After: ____ - Bridge: ____ - *The lesson, in one line:* ____

Exercise 5.2 — Open Loops + Submodality Rewrite (NLP)

Part A — your open loop. For your next talk, write the loop you'll open in the first 30 seconds and the line that closes it at the end.

- **Open (tease the ending, don't give it):** ____
- **Close (the payoff, last 60 seconds):** ____
- Second (nested) loop, optional: open ____ / close ____

Rule: every loop you open gets closed. Check before you record: ☐ all loops closed.

Part B — submodality rewrite. Take one story from Exercise 5.1 and rewrite two beats using the settings language.

BEFORE — use *small, dark, tight, distant, slow* words:

AFTER — use *big, bright, loud, close, fast* words:

Read both out loud. Which one made you feel something? ____

Module 6 — Speaking to Sell

Exercise 6.1 — Your Webinar Spine

Map your offer onto the 8 beats:

1. Hook + promise: ____
2. Origin story (which banked story?): ____
3. The shift (your Core Idea reframe): ____
4. Framework — 3 steps you'll teach: 1) __ 2) _ 3) ____
5. **The Turn (word-for-word):** ____
6. Offer stack (component → outcome): ____
7. Three objection pre-emptions (word-for-word): - Time: ____ - *Money*: ____ - "Will it work for me": ____
8. Close: CTA __ | Honest urgency: ____

Exercise 6.2 — Your 60-Second PSR Pitch

- Problem (15s): ____
- Solution (15s): ____
- Result + question (15s): ____

Drill it out loud 10 times. Tally: ☐☐☐☐☐☐☐☐☐☐

Exercise 6.3 — Pace-and-Lead, Yes-Set & Future Pace (NLP)

Part A — three pacing statements. Things that are already true in your buyer's world. No selling, no claims — just their reality, stated plainly.

1. _____
2. _____
3. _____

Your lead line (the pivot — “Here’s what actually changes that…”): ____

Part B — your yes-set. Three questions they’ll genuinely answer yes to, in order, smallest first:

1. _____
2. _____
3. _____

Honesty check: would each one still be a yes if they weren’t being sold to? ☐ 1 ☐ 2 ☐ 3

Part C — your future pace. Write it word-for-word. Present tense. Sensory detail. Ends in a question. Goes just before the offer stack.

Ending question: ____

Drill out loud 5 times: ☐☐☐☐☐

Module 7 — 30-Day Practice System

Exercise 7.1 — Commitment Contract

- My daily practice time slot: ____
- Where I’ll record: ____
- My Day 28–29 live platform: ____
- What I’ll do the moment I miss a day (the comeback rule): restart tomorrow, never “start over Monday.”

Signed: ____ Date: __

Exercise 7.2 — Baseline & Day-30 Comparison

After Day 30, watch your Day 7 baseline and Day 30 re-record side by side.

	Day 7	Day 30
Confidence (1–10)		
Clarity of message (1–10)		
Voice variety (1–10)		

	Day 7	Day 30
Camera presence (1–10)		
Would I buy from this person?		

The biggest change I can see: ____

Exercise 7.3 — The Swish Pattern + Your Identity Sentence (NLP)

Part A — the Swish. Ninety seconds, every morning of Week 1.

- **The trigger picture** (the image that makes me avoid recording): ____
- **The new picture** (me speaking relaxed, sharp, in flow — describe it): ____

The reps: see the trigger picture → small bright new picture in the corner → one, two, THREE, it explodes forward → break state → repeat, faster.

Day	1	2	3	4	5	6	7
5 swish reps done	☐	☐	☐	☐	☐	☐	☐

Intensity of the flinch, 1–10 — Day 1: __ **Day 7:** ____

Part B — your identity sentence. Not what you're working on. Who you are.

- Old: "I'm working on my ____"
- New: "I'm a speaker who ____"

Write the new one at the top of your Rep Log, and say it out loud before every rep. Say it to one other person this week: who? ____
